Go Music Saxophone

Go Music Multi-frequency Saxophone Transmitter

The OSL Go Music Saxaphone perfectly fits over the instrument using the position clips and delivers crystal clear audio reproduction. It can be connected directly to the Go Music receiver for maximum musician flexibility or to the Q500 receivers for a professional set-up. The IR connect offers instant synchronisation between the receiver & the transmitter. The receiver also has a 30dB gain control for self monitoring. Built for musicians, the setup is quick and easy with the antenna's prefixed onto the system. The whole system is designed to be small enough to fit into your instrument case or travel bags with ease

Technical Specifications
