

O 16.4

16 Channel Live Mixing Frame

The OSL 16.4 is dubbed as the musicians mixer. It has enhanced flexibility with Wireless and USB inputs, 100 mm faders, 4 aux outputs and a precise FX engine. OSL has developed custom preamps to deliver a linear frequency response. The mixing frames are robust & tour ready, yet delicate enough to fit into installations. The mixer also houses our stereo recording USB chipset for reliable & easy recording in studio or live environments.

Technical Specifications

Input Channels	16 (12 mic + 2 stereo inputs) Wireless & USB Playback Channel
Aux Channels	4
Buses	4
Noise	- 128.5 dBu
Main Mix	- 87 dBu
Frequency repsonse	20Hz to 50 Khz
Distortion	1khz 15 dB gain , 20 Hz - 20Khz bandwidth

Dimensions

Height	653 mm
Width	503 mm
Depth	164 mm
Net Weight	18.2 kg
